"Basel is the capital of life sciences in Europe. Its international flair, its solid economic growth, the excellent education system and the high quality of life play an important role in the success of the location."

Dr. Felix Reiff, Senior Bayer Representative / CEO Bayer Consumer Care AG

"Since 1921, we have put down strong roots in the canton of Basel-Landschaft. It is both international and down-to-earth; workers here are well-trained and competent, and the natural surroundings are a major inspiration to us – all of which we very much appreciate."

Michael Brenner, Chief Financial Officer, Weleda AG

Top universities and institutions for Life Sciences and related fields – especially the University of Basel, the Department of Biosystems Science and Engineering at ETH Zurich, the School of Life Sciences FHNW in Muttensz and the University Hospital Basel – and excellent vocational schools rooted in the economy

Infrapark Baselland is the perfect location for industrial companies who are engaged in research, development and/or production, especially those in the chemical and life sciences industries. The Infrapark Baselland provides the industry with a comprehensive range of services and 51 hectares of outstanding developed real estate.

LIFE SCIENCES CLUSTER BASEL

Strengthening the location together

With the “Initiative Life Sciences Cluster Region Basel”, conceived by the Basel Chamber of Commerce, several organizations have been pursuing the common objective of strengthening this life sciences hot spot since 2014.
